Scan the deeper water for waterfowl, grebes, and loons. From the east campground, follow trail around the NE side of the lake. Breeding birds include Bald Eagle, Osprey, and Spotted Sandpiper. Willow patches may contain migrants and breeding Willow Flycatchers. Adjacent forest patches host breeding forest birds including Cassin's Vireo, Chestnut-backed Chickadee, and Orange-crowned Warbler. Look for Savannah Sparrows and Western Meadowlarks in adjacent grasslands. A few shorebirds may be present at the east end during fall (Aug.-Oct.).
